Hi Jim

Sorry to bug you again. We are going to speak with Catherine at 1 today and I am trying to tie up a few loose ends (which may also come up on Tuesday)

In addition to my question about the Hannon response on expediting the treatment system implementation for OU3...did Ed ever get back to you the Commissioner wrt information on potential uses of radium at the Site?

Thanks

Jim

Was there ever any follow up to the NG letter?

Seems like Ed is merely committing to implement work in accordance with the existing agreement; he does not explicitly indicate that they will expedite the work in accordance with the DEC acting Commissioner letter.

Subject: NG OU3 VOC

Gentleman

This letter is in response to the Department's final approval effective as of March 17, 2016 of Northrop Grumman's "Pre-Design Sampling and Remedial Technology Evaluation Report for VOC Source Area, Operable Unit 3 (OU3), dated October 16, 2015 (Report). Northrop Grumman agrees to implement the remedial design and remedial action described in the Report in accordance with the OU3 order on consent.

A Hard copy of this communication will be sent to Steve Scharf in today's post.

Sincerely,

Edward J. Hannon

Manager ESH&M
